

VTEL IPanel Group Videoconferencing System

**Integrated
Windows 10
i7 PC or Mac
mini**

Internet Access

HDTV

The **VTEL IPanel** is the world's most powerful **Group Videoconferencing System**, including:

- ✓ **Fully Integrated Windows i7 PC or Mac mini**
- ✓ **Professional VTEL HD Pan/Tilt/Zoom (10x optical) camera** with 10 preset positions so you can capture the entire room or focus in on any individual participant, white board or object.
- ✓ **Optimized for Zoom** videoconferencing software (www.zoom.us) to enable scheduled or instant high definition video meetings with up to 50 room, desktop, or mobile devices for a total price of only \$15 per month. The IPanel will also run all other PC-based videoconferencing software solutions.

Even when not in a video conference, you will use the IPanel to...

- Run any individual or enterprise software
- Access the internet
- Easily stream content (Netflix, CNN.com, etc)
- Watch television

What can you do with traditional videoconferencing systems other than videoconference? Nothing!

The IPanel is ready to use out of the box and includes the following:

- Single, Dual or Triple Display(s) – **32" to 70"**
- Fully Integrated Windows 10 Pro i7 PC (or Mac mini)
- VTEL HD4000PTZ 1080p Camera with Remote and 10 Preset Positions
- Professional Tabletop Microphone
- Wireless Keyboard with Integrated Mousepad
- Multiple USB Ports
- One year Warranty and Technical Support

Complete systems starting at \$2,695.
